## BUY AMERICAN ACT

### Sliding Door Systems (both automatic and manual)

The following statements are meant to be used as a formal response to all inquiries concerning record-usa compliance to the Buy American Act:

- ✓ record-usa sliding door systems are comprised of manufactured aluminum door panels and header material that are extruded in Newnan, Georgia U.S.A. This extruder uses domestic aluminum billet.
- ✓ All subsequent fabrication of the header assembly and door panels is done solely in our United States based (Monroe, NC) fabrication facilities.

### Swinging Door Systems

The following statement is meant to be used as a formal response to all inquiries concerning record-usa compliance to the Buy American Act:

- ✓ record-usa swinging door system components are manufactured by agta-record and are assembled, tested, packaged and shipped from our Monroe, North Carolina facility.

## NOTES ON THE BUY AMERICAN ACT

- It is not to be confused with the Buy America Act.
- The Buy American Act is defined as the major domestic preference statute governing procurement by the federal government.
- It seeks to protect domestic **labor** by providing a preference for American goods in government purchases.
- The nationality of the contractor is not considered when determining if a product is of domestic origin.
