

REDUCE AIR INFILTRATION

REDUCE ENERGY COSTS

ENHANCE EMPLOYEE AND VISITOR COMFORT

Introducing

record usa Energy Efficient Automatic Door System

Exclusive Traffic Sensitive “Smart” opening logic reduces air infiltration.

When low traffic is sensed the door operates to a selectable reduced opening. When two-way and/or higher volume is sensed, the door operates at full opening width.

Superior insulation and sealing reduces heat/air conditioning loss.

Insulated Low-E Glazing available

Double Pile weather stripping

Advanced design reduces maintenance costs

Two year parts and labor warranty

User accessible diagnostics via digital LCD control in English script

Smart microprocessor with fire, access control, auto locking systems and building control inputs/outputs
